Summary

Aspiring Computer Engineering student with a strong foundation in C, C++, JavaScript, and basic Data Structures and Algorithms. Skilled in building responsive web applications using HTML, CSS, React.js, Tailwind CSS, and familiar with backend technologies like Node.js and Express.js. Quick learner, passionate about web development, and eager to contribute and grow through real-world internship opportunities.

EDUCATION

JSPM University, Pune

B.Tech – Computer Science Engineering

2023 – 2026

Pune, India

Government Polytechnic, Jintur

Diploma – Computer Engineering, Percentage: 80%

2020 – 2023

Jintur, India

PROJECTS

OTT Platform Web Application | HTML, CSS, JavaScript, React.js, ThirdParty APIs

- Successfully Developed a responsive OTT platform using React.js, HTML, CSS and JavaScript. Integrated API's to display trending movies, popular shows, and category-wise content with search and filter features.
- Implemented search and filter functionality, and ensured smooth navigation with React Router for an interactive user experience.

E-Shiksha | HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB

- Built a full-stack e-learning platform with user authentication, dynamic course listing, and MongoDB-based content management.
- Implemented user login system to allow registered users to securely access course content and track their learning progress.

AgriShare-Agriculture Sharing | HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB –

Developed a platform where farmers can list crops and sell directly to buyers.

- Implemented machine learning models to predict fair prices based on market trends.
- Built a user-friendly interface using Flask.
